

Component of Discovery: Cultural

Definition:

How people express themselves through the creation of objects and experiences that reflect, evoke, and intensify their thoughts and feelings through painting, sculpture, architecture, music, dance, theater, and literature. Culture includes how people develop traditions that will identify them as part of a group (i.e., traditional food, clothing, and celebrations).

Consider:

1. What is most important in the civilization?
 - I. What does the civilization 'value'?
 - II. Who is the keeper of culture?
2. What are the cultural activities of the civilization?
 - I. How do they reflect the values of the civilization?
3. What do they produce that maintains their culture?

Notes:
